

ANSWER:

1. The farmer takes the chicken to the far side and leaves him there.
2. The farmer returns in an empty boat and collects the fox (or grain).
3. Traveling again to the far side he deposits the fox (or grain) & picks up the chicken to return to the near side.
4. At the near side he deposits the chicken and collects the grain (or fox).
5. At the far side he leaves the fox and grain together.
6. He returns with an empty boat and collects the chicken.

FIRST HE TAKES THE CHICKEN

THEN TAKES THE FOX AND
BRINGS THE CHICKEN BACK

THEN TAKES THE GRAIN
AND COMES BACK

FINALLY, HE TAKES
THE CHICKEN AGAIN
